

Tough To Get Enough

MUSICAL LIVE YOUR DREAMS * Music/Lyrics by J. SOLIS

1 Well I had times with no cash no money
these times I don't feel too much fun, yeah
So I found out there's some procedure
to become a rich and lucky creature

2 Yeah, don't get me wrong, cause I'm no preacher
but with these facts I'd be your teacher
invest in other's creed and failures
become your own richness tailor

Ref I'm Tough to get enough – just move the money in my direction
Tough to get more than enough – this world is made for my satisfaction
tough to have enough – I don't betray just a little rip off
tough to have more than enough – don't steal, but change the holder

3 Don't work yourself, let others druge
take an interest and share in so much
scent out the needs and plant your seeds
but only for your own success, indeed

4 if others fail, for sure it's not your lack
cause of course you did the best and stayed safe in back
get used to be pleased about your client's break down
collect the ruins and use it for your own

Ref I'm Tough to get enough – just move the money in my directon
Tough to get more than enough – this world is made for my satisfaction
tough to have enough –I don't betray just a little rip off
tough to have more than enough – don't steal, but change the holder
