

# White Sail In The Wind

MUSICAL LIVE YOUR DREAMS \* Music/Lyrics by J. SOLIS

**Lucy:**

1 Every night I see you – I can feel you in my dreams  
one day it will come true – and you can feel it, too  
let back all our stories – allow this special gift  
take our burdens off – simply let us drift

**Ref** Just like a **white sail in the wind**  
Feel like a **white gull - spread your wings**  
Just let me be close to you (in the skies up with you)  
**let one second be eternity**

**Richy:**

2 Recognized at first glance – but never seen before  
Your gaze changed my life – now I go for more  
Finally arrived with you – a feel-home-atmosphere  
That's what I'm dreaming of – let go without a fear

**Ref** Just like a **white sail in the wind** (in the wind)  
Feel like a **white gull - spread your wings**  
**Just let me be close to you** (in the skies up with you)  
**let one second be eternity**

**MT** **in the thunderstorms there's no need to hide**  
**Even when everything seems to break away - I'll be on your side**  
**With our trust in love we'll just fly above**

**Ref** Just like a **white sail in the wind** (in the wind)  
**Feel like a white gull - spread your wings**  
**Just let me be close to you** (in the skies up with you)  
**let one second be eternity – eternity.**
